

Extended Health Benefit Improvements **Prescription Medications**

Effective June 1, 2018, the Board of Trustees have amended the terms of the Plan to increase benefit coverage for prescribed medications from 80% to 100%. Additionally, the Trustees amended the terms of the Plan to eliminate the \$2.00 per prescription deductible.

For clarity, this only applies to eligible medications, pursuant to the terms of the Plan, which are prescribed by your physician. The maximum payable, per calendar year, for eligible prescription medications remains the same at \$2,500.00 per person.

Please note all other eligible benefits, under the Extended Health provision, remain the same at 80% coverage.

As always, the goal of the Teamsters' National Benefit Plan, (the "Plan") is to provide all Members of the Plan with the best possible coverage based on the assets of the fund and the contributions paid to the fund by the Participating Employers.

If you have any questions please do not hesitate to contact the Teamsters' National Benefit Plan office at 604-552-2650 to directly speak to a plan representative.
