COVID-19 Update: June 6, 2020**

The following will provide an update on key developments and reminders for June 6, 2020, in response to the COVID-19 pandemic. As the VPD's response remains fluid and adaptive, it is important that all VPD staff continue to follow the developing situation on a daily basis.

Key Updates for June 6, 2020

- Telus Health no longer operating their VPD exclusive Telus Health Line

Operational Considerations

As an ongoing reminder, the VPD will not be taking the lead on any enforcement action regarding Federal, Provincial, and Municipal COVID-19 related orders. **Any enforcement action in relation to COVID-19 orders requires Car 10 approval.**

Telus Health no longer operating their VPD exclusive Telus Health Line

Due to a decrease in demand for service, Telus Health will no longer be operating their VPD exclusive Telus Health Line. The PWG will be working on adjusting all messaging to reflect this but in the interim, any police employee who believes that they have had a close contact or the nature of the contact is unclear, should be directed to seek medical advice and that they can call 8-1-1.

Vehicle cleaning

Members are reminded to wipe down their vehicles at the start of every shift and throughout their shift as needed. PPE and cleaning supplies continue to be available at the kiosk.

Patrol vehicles are sanitized once a day with Vital Oxide, which has been confirmed as effective against COVID-19. A yellow sticker on the wheel indicates that the vehicle has been disinfected. Any vehicle suspected to have been in contact with the virus will be removed from service and professionally decontaminated and tested by First Trauma before being returned to service.
